

SEULEMENT FEMMES
ART PHOTOGRAPHY

BY ANNEMARIE VOÛTE

COLLECTION 2024

My creations in Art Photography don't adhere to fixed rules; they emerge from contemporary inspirations and childhood memories steeped in fashion, styles, all infused with a touch of femininity, gracefulness, and fetishism. They encapsulate a personal perspective on sensuality and intimacy, where the expression of womanhood stands as a vital element.

My photographs serve as windows into a world I aspire to witness and capture. They offer a glimpse into my dream world, a universe laden with significance, where I aim to convey my thoughts and feelings with subtle power and unparalleled beauty.

It all began with an exploration of fashion magazines, from which I crafted collages to construct my own universe, my sanctuary. The fashion magazines took me into another world, a world with style, interior, art, seduction and sensuality. The super models from the nineties have also inspired me.

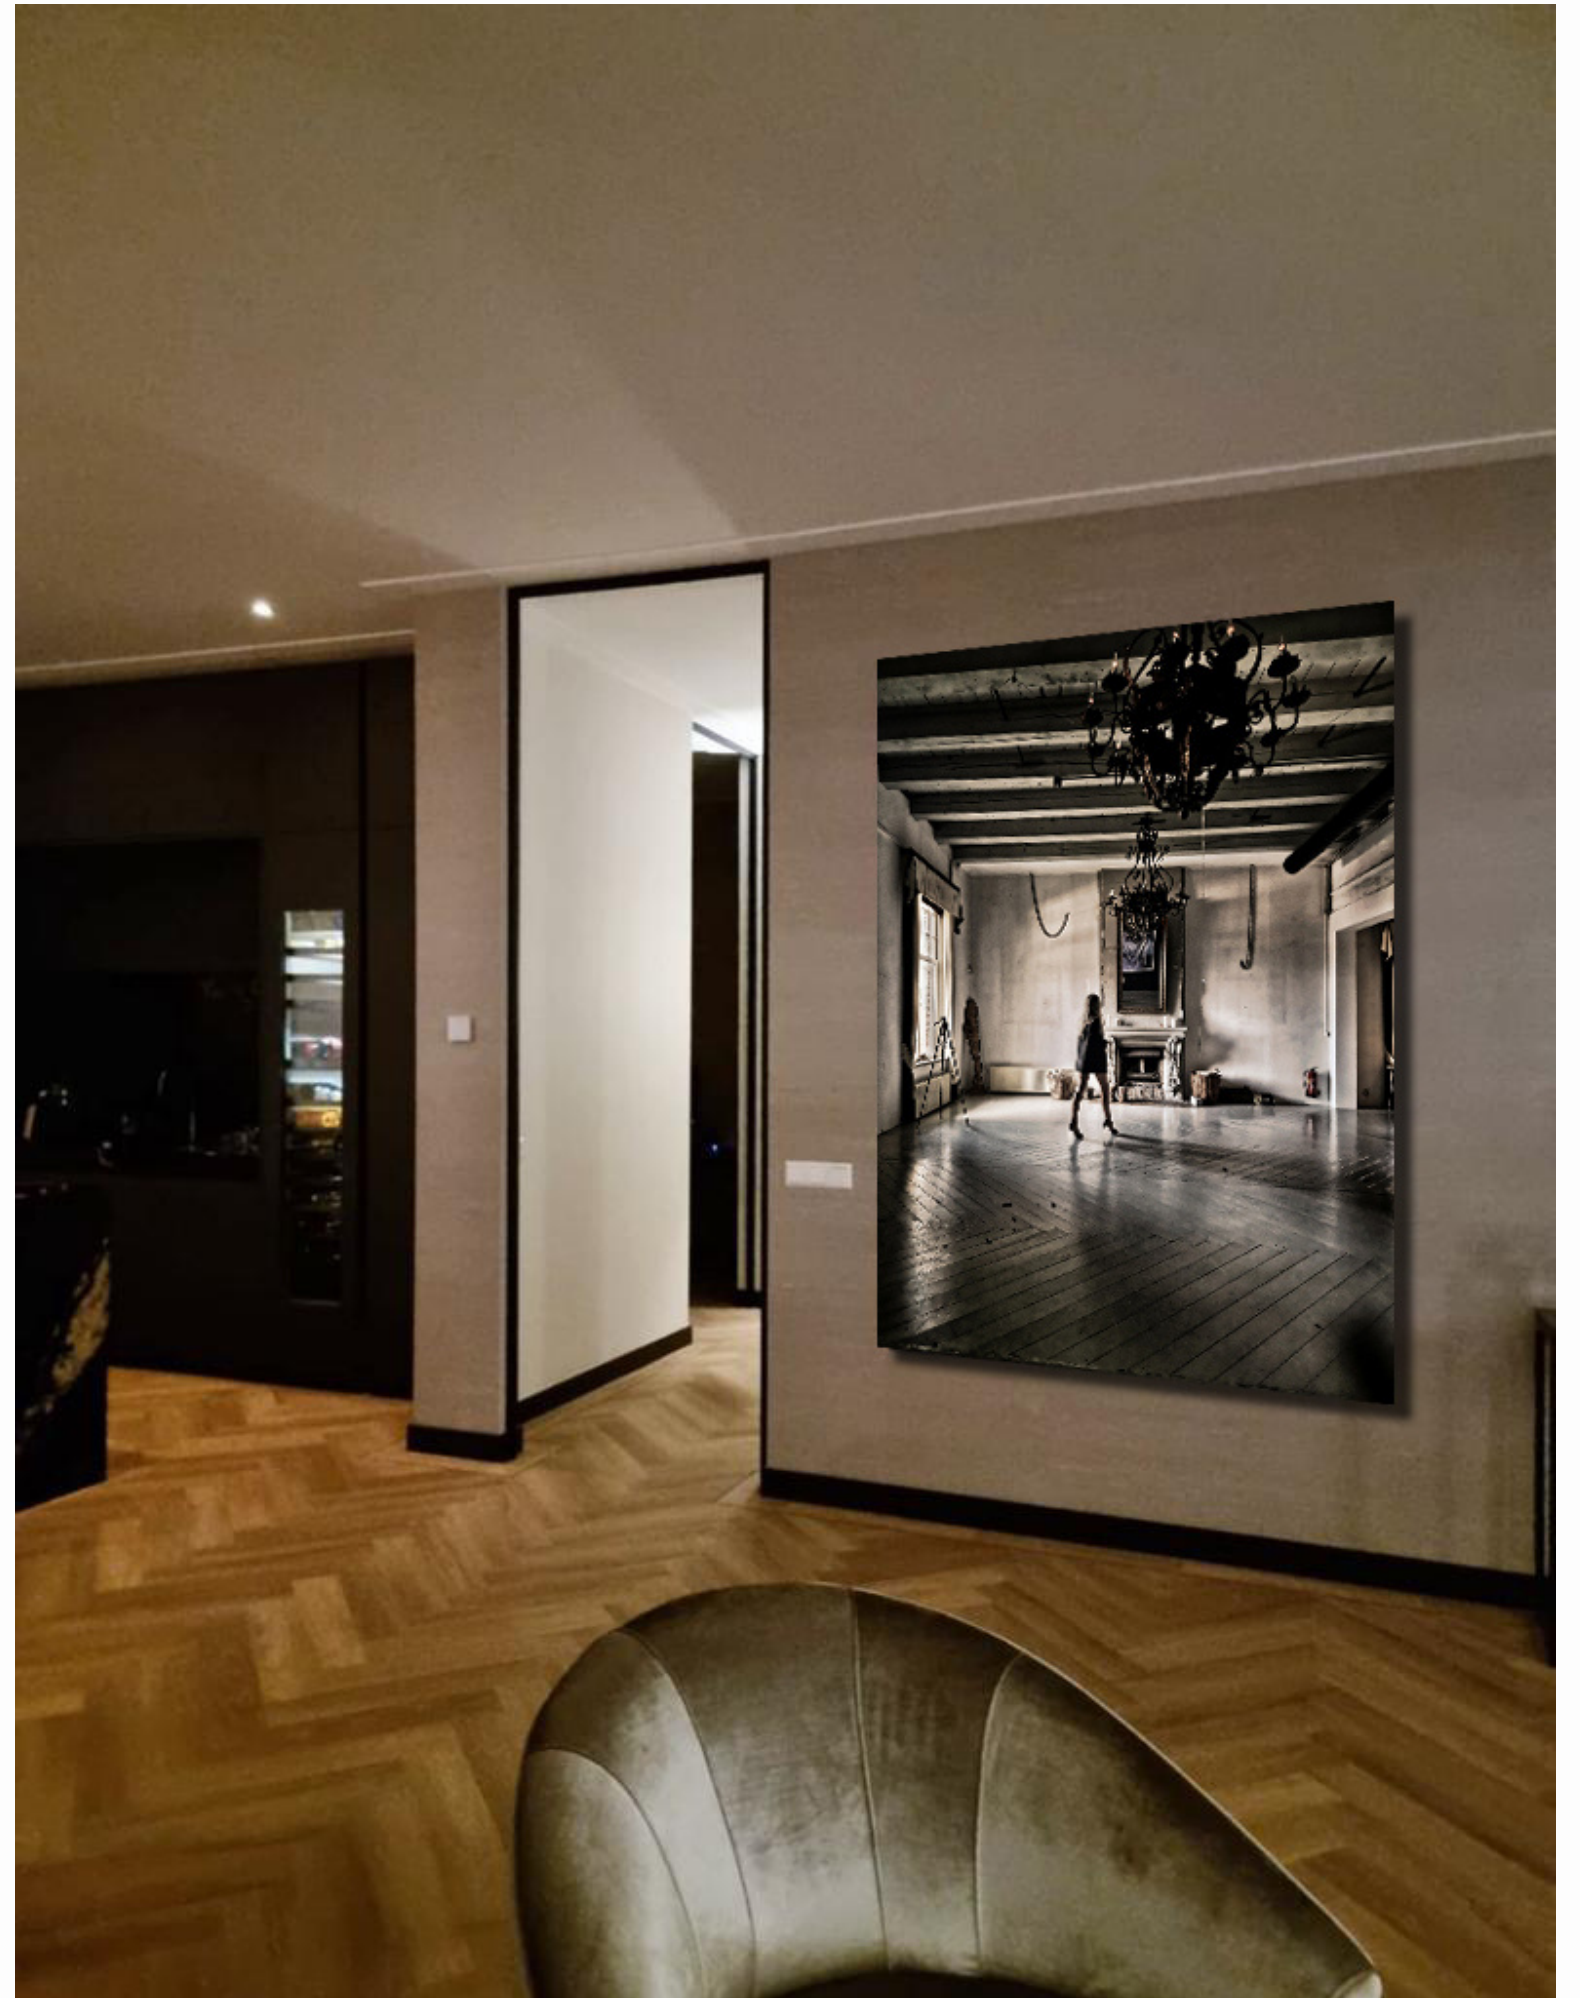

The magazines acted as my enchanted books, their pages becoming my canvas. I tore, pasted, and forged my own world using collages as the building blocks of my dream landscape. It's a landscape saturated with emotions and sentiments, a realm where I could articulate myself without the necessity of words...

The use of various layers, colours and effects creates an intimate ambiance. The photos, always in limited editions of 8 and 4 AP, are available in various formats and sizes and are accompanied by a signed Certificate of Authenticity.

Through my Art Photography, I explore a realm where creativity defies norms, born from contemporary inspirations and childhood memories of fashion and styles, infused with a blend of femininity, gracefulness, and fetishism.

Embedded within is a personal perspective on sensuality and intimacy.

It all began with an immersion in fashion magazines, which led to the creation of collages, forming the foundation of my own envisioned world.
